- Factory Trained Master Technicians
- Factory (OE) Information & Decades of Pattern-Failures
- Discounted Corporate Rates: Half the Price of other Hotline Services. (New Pricing! See below for details.)
- Most Technical calls \$15.00- \$25.00
- Live Call Service - Talk to Live Technicians Immediately!!
- Receive Technical Information Via: Phone, Fax, and E-Mail
- All Foreign & All Domestic & All Systems

Reason #1: This service allows you to speak with an automotive repair specialist who has access to the latest factory information for difficult repairs from a state-of-the-art automotive library and a symptom and repair database. These specialists have an average of 20 years experience and are continually updated with the latest training. And you'll get through to one of their specialists right away - no dispatcher and callbacks.

Reason #2: Making the call is easy and hassle-free and there's no charge for preliminary information. You're only charged when troubleshooting begins at **\$2.85 per minute** with a one time 3 minute admin fee per case. New account sign-ups receive the first 10 minutes of troubleshooting free.

Reason #3: With rates this low, using Diagnostic Hotline is the easiest and smartest decision you can make. To take advantage of this great benefit, call **1-800-260-9377** (Prompt #5 for Free Sign-up) to talk to someone immediately.
