

LABOR ASSURANCE

MAKING IT EASIER FOR YOU TO RECEIVE REIMBURSEMENT FOR YOUR LABOR ON QUALIFYING REPAIR CLAIMS

The Federated Labor Assurance Program **covers labor reimbursement inside the 25-mile restriction** of the Nationwide Repair Warranty Program.

This program provides reimbursement for labor on most repairs involving defective parts originally installed by your Federated Car Care Center.

Claims are administered by Automotive Business Solutions, the provider of our Nationwide Repair Warranty, Roadside Assistance, and Road Hazard Programs.

Your shop must be enrolled in both the Federated Car Care and Nationwide Repair Warranty programs to eligible to participate.

Program benefits to enrolled repair facilities include:

- ✓ A hassle free claims experience
- ✓ Competitive labor rates
- ✓ Same-day labor reimbursement in most cases
- ✓ Coverage on most repairs

To participate please contact your local Federated Auto Parts distributor for eligibility and complete program terms and conditions.

Claims can be filed online or by phone. Proof of purchase and proof of installations will be required on all claims. Please have original and warranty repair invoices along with purchase receipts available when filing a claim. If the shop has provided all the proper documentation and the administrators determine that it is the original part that failed, ABS will approve the claim and notify the Federated member. Payment methods will be determined by the Federated member.
