

Drive More Leads to Your Website with TurboClick

TurboClick increases lead conversions through pay-per-click (PPC) ads that direct online browsers to your inventory or auto service catalog pages.

80% of consumers search for tires online before making a purchase

50% more conversions from paid traffic over organic traffic

Dominate the Search Engines

TurboClick advertising targets potential customers through paid positions in Google search results. Your PPC ads appear in the top slots of local searches to drive traffic to your website.

How TurboClick Can Help

- Custom-built ad campaigns cater to the local needs of your audience
- Target audiences who have shown an interest in your tires or services
- Daily maintenance to evaluate & boost paid ad performance
- In-depth reports on Google Ads, including impressions & click-through rates
- Dedicated customer service support to optimize your paid search campaign
- Seamless integration with other Net Driven services
